are not like the common run of stoves, they are intelligently built to

LAST A LIFETIME AND SAVE FUEL

as long as they do last. That's why one home in every seven in the U.S. has at least one genuine Jewel stove or range in it. That's economy.

STATE VICTORY.

Fine of \$10,000 in Arkansas Imposed on
Packing Firm Upheld by Court.

Little Rock, Ark., Oct. 27.—The state
won a victory yesterday in its anti-trust
suit against the packing companies
when Judge Winfield passed upon the
motion filed by the state that the answer
of the Hammond Packing company be
stricken from the docket and that the
state be permitted to take judgment
for \$10,000 because of the (of the) officers
of the company to testify before the com-
missioner in the recent hearing in Chicago.
Judge Winfield sustained the motion and
ordered that a fine of \$10,000 be imposed
against the company. An appeal
to the supreme court was taken.

The packers held that the action of
the anti-trust law which compels cor-
poration officials to testify against their
corporations or themselves is uncon-
stitutional. Cases have been brought
against five other packers.

CHURCH QUITTING BUSINESS.

The Mormons Sell Another Trade Cen-
ter.

Salt Lake City, Oct. 27.—Reports

say that the Mormon church as an organi-
zation is to retire from commercial busi-
nesses were further verified on Thursday

when it was officially announced that
the state is to be held in Boston to

the trial of the officers of the Boston
association, asking for information con-
cerning Jenny.

The man claimed to the Boston au-
thorities that he had walked to Boston

by way of Burlington. They probed

him a good position but recently he ab-
sconded with \$20 worth of instruments.

He is a very complicated man and de-
scribed by the Boston secretary as having

very dirty teeth.

a home for poor children on a farm near

on charges of manslaughter in connection
with the death of six babies on the
